## ABOUT US

ILC was established with the view to offer Chemical Services and expertise to the Chemical and Pharmaceutical Enterprises.

Our senior partners have managed for decades manufacturing companies in the field of APIs and finished dosage forms as Qualified Person and Plant Manager.

A blend of highly experienced and young talents, focused on problem solving, is ready to offer a wide range of assistance to customers.

The Company relies on a well trusted network of information and intelligence to reach the targets and keeps a top level relationship with local and European Regulators.

# WHAT

## TEMPORARY MANAGER

Temporary management consisting in the assistance and guidance to Qualified Persons and/or Quality Assurance manager

## AUDITS

Worldwide audits to contractors and APIs and/or key starting material manufacturers in Asia, especially India and China

## TRAINING

Personnel training covers all GMP issues in the production chain, comprising internal audits and inspection preparation

## REGULATORY

A “no worry” solution to preparation of SOPs, Annual Report, Site Master File, DMF, responses to deficiency letters of regulatory bodies, solutions for e-CTD

New Projects for the evaluation of new APIs, generics, intermediates, patent status examination

Full assistance in the generics containing Narcotic Drugs and Psychotropic Substances under International Control

Our regulatory expertise includes regulatory consultants and scientists who have extensive experience dealing with global issues and regulations
